Prince Frederick, MD 20678  
(410) 535-0282

Mr. Heilmeier,

On behalf of all permitted users of the Myrtle Grove WMA shooting range, Southern Maryland Shooting Times is sponsoring this petition, to prove the hunting and sport shooting community's interest in the construction of a permanent roofing structure over the bench area at the Myrtle Grove shooting range. The range is, for the most part, deemed unusable by the majority of paying customers during rain days, extreme heat, or other inclement weather conditions. The availability of a protective roofing structure is a much requested necessity by those of us users who wish to make use of our prepaid permits on such days.

We, the undersigned, are submitting this petition to you, and your department, our names, as individual requests, and as a group that supports this cause so that you and the deciding parties with the Maryland Department of Natural Resources, can be made aware of the importance of this project to us.

We appreciate your time and we look forward to any updates and details regarding the construction process of the roofing structure over the range bench area.

Sincerely,  
The SMST Staff & Myrtle Grove Range Users

SMST has already accepted hundreds of signatures, so,  
show your support for the project.
